COMPANY PROFILE

Ittehad Corporation is an exquisite combination of the spirit of creativeness and the energy of youth. Its existence and continuation is outcome of the passion and vision of a team of youngsters, who have inherited the proverbial artisanship of Sialkot.

SYED AQEEL AHMED
CEO

Blending the inherited skill with state-of-the-art technology. They have grown into an organization manufacturing and exporting Motocross, Bmx, Paintball, Mtb And Accessories the world over. Within a short span of a few years, it has earned the trust of business partners and customers worldwide.

Now with our buyers and business partners spread across the globe, we are ready to explore new horizons in the art of Manufacturing Motocross, Bmx, Paintball, Mtb And Accessories. Our R & D department works round the clock to search the new dimensions in this field. This keeps us in touch with ever-changing global professional and technological scene.

Quite naturally, no business organization stands in vacuum. Therefore, our trusted customers & buyers are the most important other side of the pictures. The ever flowing stream of feedback from them keeps us on our toes and brings us closest to the feel of things. Without this support we lose considerably. Hence, we honour the reputation and trust of our customers ahead of everything else.

With **Ittehad Corporation**, the range of designs, materials and colours is virtually inexhaustible, Apart from the variety in this catalogue; we can accommodate any Customer-advised specifications and modifications.

The professional and aesthetic demands of any kind can be met without any problem. Under the vigilant eyes of our experts, every stitch is scanned to maintain the highest standards of quality and performance, because three important things are the stake:

Biker's honour, Buyer's reputation and our pride.

Yours Sincerely,
Ittehad Corporation Management.

PATTERN ROOM

MANUFACTURING PROCESS

Sampling /Development

We have around 90,000 to 100,000 /month capacity which will be enhance near future as we are growing our business, new constructions are in process. A collection can only sell well, if the collection-sample fascinates your customers by means of perfect processing and valuable appearance. In this spirit, our experienced team works with great passion for the product on each and every sample collection.

Cutting section

Cutting section is one of the most important sections for manufacturing garments in clothing factories. There is a process which we strictly follow in the cutting section in order to send the right parts to the next process and ensure the production of quality garments. Garments parts are cut according to the pattern.

MANUFACTURING PROCESS

Stitching Unit

Our sewing workshop is divided into a knitting and weaving department to allow us to manufacture a broad range of goods. With each department having separate management as well as quality control staff, we can ensure the highest quality. To optimize processes, we strongly believe in the 5 methodologies to keep us as efficient as possible.

Packing Unit

Packing is the last process before ship the garment, we have well trained packing team to meet the customer requirements. we have capacity more than 600,000 Pcs /month.

MANUFACTURING PROCESS

1. DESIGN SUBMISSION

After submitting your order, We Will Send You a Graphic Designing. This will include all the details/placement of colors, logo, elements, name, numbering,so please make sure all details are provided prior to creating the design. If you need any help in creating your design our talented graphic designers will assist you on that.

2. PRODUCT DEVELOPMENT

Once the final design is approved your order will go into production. If you have ordered a pre-production sample or the full order.

3. PRODUCTION - PRINT

Once the order enters the production it goes through different stages, in the first stage the approved design will be transferred.

MANUFACTURING PROCESS

4. CUT & SEW

In the second stage the printed panels will be inspected and cross verified with the actual design approved.

We will then cut the panels and sew and pieced them together on sewing machine.

5. PRESS / IRON UNIT

Press is essential process to finish the garment, we have capacity around 100000 Pcs /month.

6. WORKSTATIONS

Desks with computers for staff to manage various tasks such as scheduling, payroll, and order processing.
